

SEASURVIVE

Inflatable Life Jackets

SEA SURVIVE Inflatable lifejackets are easy to wear, easy to re-arm, easy to repack and maintain. It is recommended that the user trains in the use of this lifejacket to ascertain its performance.

- ISO 12402 Approved
- Automatic Inflation
- Whistle
- SOLAS reflective tape
- Model QA 9030

It is vital the lifejacket is correctly adjusted to fit the user. An incorrect fit or adjusting will impair performance and may lead to the lifejacket slipping off in the water.

In an emergency there is not time to learn how equipment works!

- Practice putting on your lifejacket and making the final adjustments for a safe fit.
- It is designed to turn you face up at the correct angle mouth and nose held clear of water.

CAUTION: DO NOT USE AS A CUSHION. DO NOT CARRY BY ORAL INFLATION TUBE

CAUTION

DO NOT USE AS A CUSHION. DO NOT CARRY BY ORAL INFLATION TUBE

Gas cylinders are dangerous goods and to be kept away from children and not to be misused

Keep yourself safe Don't forget the annual service of your lifejacket

The working life of your lifejacket will be prolonged if it is fitted and worn correctly and serviced regularly. Your lifejacket is an important piece of safety equipment.
