

S.O.S Law Enforcement

LOAD BEARING TACTICAL LIFEJACKET VEST

Approved to ISO 12402 International Standard

Designed to fit over body armour with purpose designed pouches to suit the mission profile

The S.O.S Law Enforcement Lifejacket Vest are custom made to suit the requirements of varies law enforcements mission profiles. SOS Marine has combined a load bearing tactical work-vest with the safety of a lifejacket all in one, including many pouches for frequently used equipment.

The design provides an optional hands-free hydration system placed in the rear of the vest to assist the management of heat stress in the law enforcement marine work-place environment.

The S.O.S. Law Enforcements lifejacket vest is a proven design, lightweight and comfortable and certified to the latest requirements of the international standard ISO 12402. The lifejacket is a 275N or 150N inflatable lifejacket and incorporates a D ring for safety harness or safety line, which compiles to EN ISO 12401:2009

SOS Marine is an ISO 9001 manufacturer of specialised marine safety and rescue equipment, purpose-built for the tough environments of the Defence, Law Enforcements and high- risk marine tactical operations. SOS supplies safety equipment to nine naval forces world-wide including specialised equipment for the Royal Australian Navy, Australian Army, Australian Water Police, Australian Coast Guard and Customs.

SOS Marine has introduced new personal safety equipment to improve productivity and help to enhance health and safety. This new design approach to safety equipment capabilities meets current and future operational needs of maritime safety.

The wearer may also inflate the buoyancy vest via the oral tube on the left-hand side.
- SOLAS light has been fitted and is located on the front chest area. It is activated upon immersion in water and if necessary may be turned off during daylight.
- SOLAS grade reflective tape is located in a minimum of 6 places on the upper side of the buoyancy chamber
- Optional 3 litre personal hydration `hands-free` system.
- Removable reflective or subdued lettering may also be applied.
- 150N and 275 Newton buoyancy bladder, manual or automatic inflation system
- Side-adjusting tension webbing for multiple size fitting ensure a snug fit size
- Adjustable crotch straps are housed in an internal secure pocket of the vest.

The S.O.S. Law Enforcement lifejacket vest design is easily donned with a front upper and waist-belt.

The vest is constructed from the highest quality materials and components with a high resistance to abrasion, high UV and saltwater environments.

Designed to fit over body armour and have pockets and pouches tailored to suit the mission profile. Fire arm holsters may also be built into vest during manufacturer

S.O.S. Law Enforcement Lifejacket Vest

This hands-free personal water bladder may be easily be removed from the rear pouch and replaced if there is another sailor using the lifejacket

SOS Marine has established a 30 year reputation for designing innovative products to suit marine work-place environments.

SOS Marine manufacturing has won several prestigious Australian Awards for `Product Innovation and an International Award for `Excellence in Safety & Protective Products`

S.O.S Law Enforcement Lifejacket and load bearing tactical vest is recognised for design innovation with the inclusion of a drinking bladder into the rear of the vest

Managing heat stress in marine work-place

SOS Marine recognises how important it is to stay hydrated by incorporating a hands-free water bladder in the design of this vest.

This allows the wearer to have access to quality drinking water while working or in the event of man-overboard situation.

The personal water bladder may be easily removed from the vest and replaced if worn by a new team member.

The design of the lifejacket enables waterfront risk management teams improve their capabilities and effectively support Occupational Health & Safety (OH&S) obligations.
