

# S.O.S Waterfront Lifejacket Vest for Marine Pilots

**S.O.S Waterfront Workers Lifejacket Vest certified to ISO 12402**

S.O.S Waterfront Workers Lifejackets are tailor-made to suit marine pilots working conditions. The lifejacket is attached to a breathable vest providing unimpaired mobility to withstand the most demanding work environments.

The jacket allows the wearer to carry an EPRIB or similar personal emergency beacon in a neat convenient pocket.

- The vest has adjustable waist belt to suit all sizes
- Customised pouches to carry essential equipment and personal items
- In the rear of the vest there is a custom designed pouch for a personal hands-free hydration system

**SOS Marine is designing safety equipment for the changing world**

# S.O.S Waterfront Workers Lifejacket Vest

## Managing heat stress in marine workplace

Heat stroke is a medical emergency

- SOS Marine recognises how important it is to stay hydrated by incorporating a 3 litre hands-free hydration bladder into the rear of the Lifejacket vest.
- This allows the wearer to have access to quality drinking water while working or in an emergency of a man-overboard situation

In a Man-Overboard situation the victim has access to drinking water

This simple innovation also assists the **carbon footprint** associated with bottling and transporting plastic water bottles
