SOS WATERFRONT LIFE JACKET VESTS

- The SOS Waterfront load-bearing lifejacket vest provides a new innovation in managing hydration in the marine environment.
- The jacket incorporates a drinking bladder into the design which allows the wearer to have access to quality drinking water while working or in the event of a person overboard situation.
- This assists in maintain hydration levels for the wearer and assists the reduction of the carbon footprint associated with packaging and transporting bottled water.

Dehydration is one of the main medical emergencies confronting marine Occupational Health and Safety obligations
